

InsureTech: in the eye of the hurricane

Dear Tom

We are delighted to invite you to a timely breakfast seminar examining how emerging technologies were used in 2017 to assist with the insurance industry's reaction to hurricanes Harvey, Irma and Jose, and how technology can be leveraged by different parts of the insurance industry.

Leading InsureTech proponents Jason Futers (CEO of Insurdata) and Ranvir Saggu (CEO of Blocksure) will be joined by members of BLP's insurance and technology practices for presentations and a panel discussion, followed by an opportunity for networking.

We will discuss:

- the range of ready to use technologies available, including augmented reality and blockchain;
- how the adoption of these technologies will benefit different areas of the insurance market; and
- opportunities and challenges of investing in InsureTech companies by established insurance market participants.

To register your attendance please use the 'Accept' buttons above and below. We hope that you are able to join us.

Kind regards

BLP Commercial & Technology team

Jason Futers (CEO, Insurdata)

Jason is an experienced board-level executive and technology entrepreneur, with over 20 years' experience in the re/insurance risk management industry. Jason is the cofounder and CEO of Insurdata, a provider of property-specific data to support re/insurance underwriters pricing, underwriting and portfolio management decisions.

Prior to Insurdata, Jason founded huupe.com, was Executive Director of AgRisk, held various positions at RMS including Head of Emerging Risk Innovation and CEO of RMS Japan, and was on the Advisory Board of the Cambridge University Centre for Risk Studies.

Ranvir Saggu (CEO, Blocksure)

Ranvir is CEO of Blocksure, a full cycle insurance sales, administration and claims platform which leverages the inherent advantages of blockchain. Ranvir has always had a strong focus on how technology can benefit insurance, anticipating that it will improve connectivity, remove unnecessary processes and ultimately lead to a much more streamlined global insurance industry.

He has extensive experience across many areas of insurance having held senior executive roles at businesses including Fosun Insurance, Towergate and the Direct Line Group.
