

## **BAI Claims Services: Delivering effective outcomes in disease claims**

In a litigious world, organisations need claims-handling expertise that they can truly trust. At BAI Claims Services, we bring insight and extensive experience to our clients in the handling of occupational disease claims. We combine resources and experience with in depth investigations and attention to detail in four main practice areas:-

### **Claims Handling Services**

We provide effective claims solutions for industrial disease claims, from asbestosis and mesothelioma to noise induced hearing loss and dermatitis.

### **Corporate Insurance Tracing Services**

We can trace gaps in your insurance history and help you manage your FCA obligations regarding ELTO enquiries.

### **Corporate Liability Investigations Services**

We have a dedicated investigations team which can analyse your corporate history and gauge your potential liability for historical disease claims.

### **Accident Investigation Services**

We offer a full end to end accident investigation service from drafting witness statements to attending legal conference and settlement meetings.

### **Contact us**

We are always happy to explore how our experience and services could benefit your business. If you have an enquiry or would like to find out more about us, please contact the office on (01244) 370077 or [emmalawton@baiclaims.com](mailto:emmalawton@baiclaims.com) or alternatively via our website [www.baiclaims.com](http://www.baiclaims.com)
