IRLA MEMBERS BREAKFAST BRIEFING

The Californian Wildfires

21 JUNE 2019 / LONDON

TARGET AUDIENCE

This briefing will appeal to those who are active in the industry, or who are employed in areas related to the insurance claims process, such as claims adjusters, claims and reinsurance technicians, brokers and litigation lawyers. If delegates wish to know more about the insurance claim and recovery issues we will talk about this as well as exploring some, but not all, 'protection gap' problems. Graduates, young professionals and delegates entering from other industries will also find this update of value. By the end of this session, delegates will:

- Have clarity regarding the frequency and severity of these wildfire events and losses.
- Understand some of the human causes due to our increasing presence in the areas where the wild lands meet developments.
- Be aware of actions by regulators and legislators to close the insurance "protection gap" for these losses.
- Gain insight into the litigation to hold the responsible parties liable for the losses.
