

IRLA Congress 2020 – postponed due to the Coronavirus – Covid-19

Following the recent escalation of Government actions seeking to protect the population from the spread of the Coronavirus, we have all been working with our suppliers and have agreed that 'Legacy 20/20 Vision, Brighton Congress' must be postponed from the original dates of 17 – 20 May 2020. We very much regret that Congress will be delayed bearing in mind the hard work that has already been put in by everyone, however, the safety of our members and delegates and of the staff organising the event is paramount.

Following negotiations, we have secured 22 – 25 November 2020 at The Grand Hotel, Brighton for Congress to proceed, though we recognise that that week is not ideal for our American delegates. For all delegates, your package will be transferred to the new dates. If, regrettably, you are unable to attend in November, please contact our events team at leslieann.giovnilli@irla-international.com or call us on 07776 302462 to discuss options.

We will begin the process of issuing an updated programme and new tickets in the next few weeks. In the meanwhile, look out for additional content and activities on the IRLA website and updates regarding Legacy 20/20 Vision at www.irla-international.com

Take care of yourselves, your families and friends and we look forward to seeing you in Brighton in November, if not before.
