

About the National Autistic Society

The National Autistic Society is here to transform lives, **change attitudes** and create a society that works for autistic people.

We **transform lives** by providing support, guidance and practical advice for the 700,000 autistic adults and children in the UK, as well as their three million family members and carers. Since 1962, autistic people have turned to us at key moments or challenging times in their lives, be it getting a diagnosis, going to school or finding work.

We change attitudes by improving public **understanding of autism** and the difficulties many autistic people face. We also work closely with businesses, local authorities and government to help them provide more autism-friendly spaces, deliver better services and improve laws.

We have come a long way but it is not good enough. There is still so much to do to **increase opportunities, reduce social isolation and build a brighter future for people on the spectrum.** With your help, we can make it happen.
