

Brighton, you've been grand!

IRLA Congress, Day Three - a summary

Tired, but not beaten, delegates 'returned to the future' - in the main seminar hall - to hear from our young professionals, followed by our guest speaker - Dr Katherine Daniels - who encouraged us to be aware of the possible trouble we are storing up through poor storage of dangerous materials, we then heard about potential claims coming on the horizon and considered our own and our industries legacy.

Our delegates are now departing and leaving the sunny skies of Brighton - we thank everyone who attended and hope you enjoyed the conference. We look forward to receiving your feedback.

Congress 2023 is taking early bird interest with a £250 non-refundable deposit. Email your interest to [Secretariat](#) to pay by credit card only.

Please remember, you can still donate to the NAS - [click here](#) to do so and make a difference.
