

In sunny Brighton...

IRLA Congress, Day Two - a summary

Day two started with more lovely weather. We began with some social meetings and catch ups on yesterday, and the programme officially opened with our motivational and inspirational speaker - Mandy Hickson - a former RAF pilot. We went on to recognise our young professionals and show appreciation to those who have retired. A breakout session on neural diversity was an eye opening topic for many, and the day concluded with the Gala Dinner, which kept most delegates up until the early hours!

Well done to our Heads & Tails winner - Nick Johnson of Riverstone International, and a huge thank you for donating your £250.00 prize money to [National Autistic Society](#)

It's not too late to make your donation to the NAS - please [click here](#) to do so.

We are now looking forward to our third and final day in the Sussex sunshine!
